PROFESSIONAL EXPERIENCE

Capillary Technologies, Pune

Sep 2023 – Present

Senior Software Development Engineer

- Led React.js frontend development and Node.js API design for a Fortune 500 SaaS loyalty platform serving global retail brands; integrated Magento REST APIs with Java microservices for end-to-end commerce workflows.
- Led React.js migration of legacy frontend components, achieving 35% reduction in page load time with measurable LCP, FID, and CLS Core Web Vitals improvements.
- Designed and implemented RESTful APIs with Node.js integrated with third-party retail systems, cutting integration time by 40% across multiple release cycles.
- Shipped features across agile sprints with zero critical post-release defects; mentored junior engineers through structured code reviews and technical design sessions.

Kitchen365, Remote

Apr 2023 – Sep 2023

Senior Software Engineer

- Built and optimized Magento 2 custom modules for a B2B kitchen supply platform, improving checkout conversion by 20% and catalog UX for thousands of dealers across 10,000+ SKUs.
- Optimized MySQL with advanced indexing strategies, delivering 50% reduction in database query response time.

Commerce Pundit, Mumbai

Aug 2021 – Mar 2023

Senior Software Engineer

- Delivered end-to-end Magento 2 development for 15+ U.S.-based e-commerce storefronts, owning full SDLC from requirements gathering through production deployment.
- Architected and launched Shopify custom apps (Storefront API, Admin API, Webhooks), automating order syncing and inventory management for clients migrating 50,000+ SKUs from Magento to Shopify.
- Deployed AWS infrastructure (EC2 auto-scaling, S3 + CloudFront, SQS async queues) achieving 99.9% uptime and 45% reduction in media delivery latency via CDN optimization.
- Integrated Stripe, PayPal, and ERP systems via REST/SOAP APIs; authored reusable PHP/JS modules cutting development time by 30% across all client projects.
- Conducted Lighthouse performance audits (lazy loading, minification), improving scores by 25 points across deployments.

Geecon Systems, Mumbai

Jun 2015 – Jul 2021

Software Engineer

- Built PHP/MySQL web applications and Magento-based CMS solutions for 20+ retail and services clients across full SDLC — requirements, development, QA, and production deployment.
- Delivered pixel-perfect responsive frontends; introduced component-based JS patterns and Git-based workflows, significantly reducing merge conflicts and improving team collaboration across 20+ client projects.
